STATEMENT OF SAN BEDA COLLEGE ON HAZING

San Beda College deeply mourns the untimely death of its student Marvin Reglos and the despicable harm done to his companions. We reiterate our care for the victims and their families and our resolve to secure justice for them. We will continue to extend the necessary assistance to their families, and are cooperating with the National Bureau of Investigation and the Philippine National Police.

As a community committed to Peace, we denounce in strongest terms this cowardly act and unlawful activity. We do not recognize any fraternities or sororities. We consider student involvement in these organizations a major infraction which could lead to student suspension or exclusion from school. We strongly condemn any organization that employs any form of intimidation, intentional force, physical violence or harm on our students.

The entire San Beda College community, particularly the College of Law and the Law Student Government, are taking concrete steps to review and tighten our school policies in order to prevent the occurrence of similar unfortunate incidents in the future. We have formed a committee to conduct an investigation to establish the facts of the case, and mete out the necessary sanctions to those found guilty of this dastardly act.

As we offer our deepest sympathy and prayers to Marvin's family, we stand committed to attaining justice for him and his companions.

NURTURING THE FILIPINO ENTREPRENEURIAL SPIRIT

Filipinos are born entrepreneurs. From your nifty neighborhood food vendors to international export giants, Filipinos have always shown a natural knack for turning business ideas into success stories.

Proof to this is the growing Small and Medium-sized Enterprises (SME) in the Philippines. SMEs account for majority of all business establishments in the country, the largest share in Philippine entrepreneurship.

But growing a business is no mean feat. There are a lot of challenges that entrepreneurs face... finding the right business mix, keeping up with industry changes and trends and most common of all - financing.

And this is why BDO created the Small Business Loan.

Widen your reach
We make it possible for you to open more stores. Given additional capital, you can achieve your goal of setting up another outlet or shop to maximize your business' potential. Whether it be across different regions or just within your locale, you can be assured that you will be able to market your products and services in strategic areas of your choice.

Explore new markets
We enable you to expand your business. With extra financial assistance, you can capitalize on developing your business through tapping new and alternative markets or further enhancing your product line. You can foster growth and fast track your road to success by immediately responding to promising business ventures and prospects.

Invest in additional inventory
We allow you to increase your supply to meet growing demand. By means of supplementing your existing resources, you can purchase or produce more stocks to take advantage of new business opportunities. Now, doubling or tripling your inventory is easy and hassle-free!

"With BDO's Small Business Loan, we get to cater to the financing needs of different businesses - sole proprietorships, partnerships and even corporations - in various fields and industries. We offer affordable payment terms and flexible interest rates on a short-term or long-term basis, enabling SMEs to keep pace and stay abreast with the ever-changing market landscape," says Virgilio C. [illegible], BDO Consumer Lending Group SVP & Small Business Loan Business Head.

Available to businesses with at least P1 million annual gross sales, the BDO Small Business Loan allows you to utilize your assets as collateral to secure financing for a minimum of P1 million up to a maximum of P10 million. Payment terms range from 1 year to 10 years.

With over 700 branches nationwide, applying for a BDO Small Business Loan is quick and easy!

Call us today at 631-8000 or visit a BDO branch nearest you and let BDO be your partner in building your business. We believe in giving small businesses a chance to grow.

Heart-to-Heart Talk

with
Dr. Chuck
Chua Chiaco

10 Ways to Live Heart Smart

1. Eat healthy. Go for a balanced diet, with lots of fruits, vegetables and whole grains. Avoid fried foods. Start your day with oatmeal. It helps lower your cholesterol level. Use olive oil instead of regular cooking oil. Limit saturated fat which is found in beef, butter, cheese and milk, it can raise cholesterol levels and increase heart disease. Opt for fish that has polyunsaturated fat, which can decrease the risk of heart attack and lower blood pressure.

2. Get moving! Exercise regularly. It helps lower your cholesterol, cuts down on stress and can help you reach a healthier weight. Participate in moderately vigorous physical activity 3 to 5 times a week. Walking is an excellent exercise that can help you live heart healthy.

3. Quit smoking. Butt out! The chemicals in tobacco can damage the heart and blood vessels of the heart and can cause the narrowing of the arteries, causing them to constrict and ultimately lead to a heart attack.

4. Shed excess weight. Being overweight or obese can lead to other conditions such as high blood pressure, diabetes and high cholesterol which can increase your risk for heart disease. Maintain a healthy weight. Talk to your doctor about a healthy weight loss plan that includes good nutrition and exercise, not fad diets or supplements.

5. Snack smart. Trade a handful of dark chocolates and almonds plus fruits, vegetables and even a glass of wine. These food are rich in antioxidants, anti-inflammatory omega-3 fatty acids, fiber and other nutrients that can lower your heart disease risk.

6. Don't drink too much. Too much alcohol can increase blood pressure and lead to heart failure or stroke. Stick to light to moderate drinking – which is considered to be one drink per day for women and two or less for men.

7. Reduce stress. People who are stressed tend to eat more, drink more, smoke more, sleep less – all bad for the heart.

8. Take a break from work. Take up a new hobby or take more vacations. They can lower stress levels, bring a sense of accomplishment, and do your heart a world of good.

9. Get enough sleep. Most people need an average of 7-8 hours at night. Sleep allows the neurons in the brain to become less active and undergo repair. The relaxation is good for your heart, as well.

10. Enjoy sex. Sex is key to living a longer, healthier life. It can markedly cut down your chance of heart disease and stroke. It helps lower your blood pressure, improves your sleep and boosts your immunity. Plus it burns 200 calories. If it is a part of a happy, loving marriage, it is a win-win situation.

More partners that keep hearts healthy, happy~

PHILIPPINE HEART CENTER– Excellence, Expertise and Experience

(over 55,000 successful heart surgeries, to date)

Consider these other exemplary credentials: Since its establishment 37 years ago, over 2 million indigent patients have been served by Philippine Heart Center (PHC). Over the last 16 to 17 years, based on a comparison of U.S. hospitals conducted in 2009, PHC has been performing at par with, or sometimes even better than top heart hospitals in the U.S., like Johns Hopkins in Baltimore, Brigham in Boston and Stanford in California in terms of number of operations and low mortality rate for patients 40 years and older for Percutaneous Transluminal Coronary Angioplasty (PTCA) and for Coronary Artery Bypass Graft (CABG). PHC is also the first Asian hospital that was chosen as a pilot organization by the Qmentum International Accreditation program of Accreditation Canada with the goal of elevating PHC's primary concern for safety and quality of care to the level of international best practices. As a training hospital, PHC has graduated over 970 physicians from its cardiovascular specialty programs. These graduates are now practicing as heart experts in hospitals all over the Philippines and in ASEAN countries. PHC continues to offer postgraduate courses and other training programs for over 1500 medical and over 7000 nurse practitioners, from the government and private sectors every year. It also conducts over 150 researches every year and is one of only a few hospitals in the Philippines that does experimental surgical research in animals.

PHC has the most comprehensive, most modern, state-of-the-art equipment for cardiovascular care in the Philippines, with 3 flat panel Cathlabs, broadband 3D echocardiography machines, 6 open-heart Operating Rooms plus the first Hybrid Operating Room in the Philippines for advanced cardiovascular procedures and a dedicated Pediatric Cardiac Operating Room by June 2012, two expanded and refurbished Surgical Intensive Care Units for post-heart surgery patients, Nuclear Gamma camera, CT scan, Magnetic Resonance Imaging and Digital Radiology machines. It has the first Modified lighting system that programs the circadian rhythm to patient's rooms. PHC has the first integrated, comprehensive, fully standards-compliant, patient-centered Hospital Information System with a functional Electronic Medical Records system since 2009. It is the only hospital included in the PAMP Employer of the Year. Its Program for Awards and Incentives for Service Excellence (PRAISE) and Surgical Outreach Program (Open Heart Surgery Mission) were given Excellence Awards by the Asian Hospital Management Awards held last August 2011 in Korea. In 2011, PHC topped the GOLD standard of the Department of Health Campaign, [illegible] with the highest rating of [illegible]. Its health care waste management program has been given recognition by the [illegible] of the University of the Philippines Planning and Development ranking first among 15 Philippine institutions and 5th among eight Asian countries. PHC is the designated National Reference Laboratory (Anatomic Pathology for Cardiovascular Diseases) by the Department of Health and is in the process of acquiring international accreditation for its Institutional Ethics Review Board.

GOLD

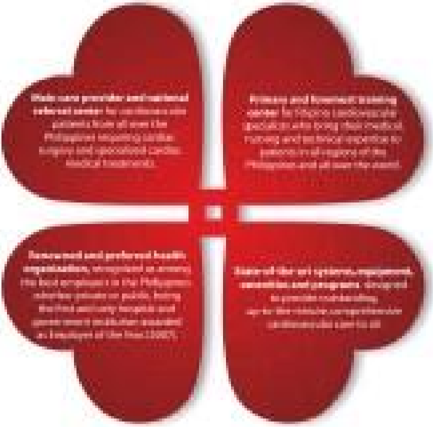
[illegible]

It has been 37 years, February 14, 1975 to be exact, when Philippine Heart Center was inaugurated, the occasion graced by renowned cardiovascular experts like Dr. Christiaan Barnard, Dr. Denton Cooley, Dr. Donald Effler and Dr. Charles Bailey.

Dr. Avelino P. Aventura, a cardiovascular surgeon who performed many pioneering operations in the Philippines, became PHC's first director, opening PHC's doors to serve heart patients. Since then, [illegible] directors have served the PHC. The current Executive Director is Dr. Manuel T. Chua Chiaco Jr., who assumed the position in 2011.

Now more than ever, PHC affirms its vision of being the leader in upholding the highest standards of cardiovascular care, responsive to the health needs of the Filipino people.

We cure. We care.
With all our strength. With all our heart.



Main care provider and national referral center for cardiovascular patients from all over the Philippines requiring cardiac surgery and specialized cardiac medical treatments.

Primary and foremost training center for Filipino cardiovascular specialists who bring their medical, nursing and technical expertise to patients in all regions of the Philippines and all over the world.

Renowned and preferred health organization, recognized as among the best employers in the Philippines, whether private or public, being the first and only hospital and government institution awarded as Employer of the Year (ECOP).

State-of-the-art systems, equipment, amenities and programs, designed to provide outstanding, up-to-the-minute comprehensive cardiovascular care to all.

PHILIPPINE HEART CENTER
for healthy, happy hearts.

East Avenue, Quezon City (632) 925-2401 to 50 **www.phc.gov.ph**

PHILIPPINE

Saving lives, winning

"The heart hospital with a heart!"

"My father had a bypass in the late 80's at Philippine Heart Center. Today he is happily enjoying his grandchildren, and they are enjoying him!"

"Basta heart, dapat Heart Center!"

" My wife and I were worried when I needed heart surgery. Thank God for Heart Center! Excellent care without the exorbitant price. "

"I got the best doctor here, plus they honored my [illegible] medical insurance, so why go anywhere else?"

" Proud proof that something government-owned and government-run can be very good and work so well!"
